

Propane Tank Recycling in North Branford

Beginning November 3rd, and continuing on the first Saturday of each month, the North Branford Recycling Center will accept old, used, empty 20 lb. gas grill propane tanks that are in good condition. The cost will be \$3.00 per tank. Blue Rhino, a producer of these tanks, has made this recycling program possible. After 36 tanks are collected a call will be placed to Blue Rhino and they will pick up the used tanks and refurbish them by shot blasting, repainting, and by retrofitting outdated valves and other components. This will prolong the useable life of a tank. If a tank does not meet safety and quality standards, Blue Rhino will reclaim any unused propane and recycle the steel.
