1. Status Quo

East Shore District Health Department: North Branford has 11 confirmed cases, and 1 Fatality.

COVID-19 Update April 6, 2020: As of April 06, 2020, a total of 6906 laboratory-confirmed cases of COVID-19 have been reported among Connecticut residents (Figure 1). **One thousand two hundred and twenty-one patients are currently hospitalized. Two hundred and six residents have died.** The increase in cases reported today is related to catch up of data entry and does not reflect a change in the trajectory of the outbreak.

All data in this report are preliminary; data for previous dates will be updated as new reports are received and data errors are corrected. Hospitalization data were collected by the Connecticut Hospital Association. Deaths* reported to either the OCME or DPH are included in the daily COVID-19 update.

*For public health surveillance, laboratory-confirmed COVID-19-associated deaths are defined as patients who tested positive for COVID-19 around the time of death; this is not a determination of the cause.
